FLORIS WONDERGEM

PARTNERSHIP PRESENTATION / 2026–2027

FLORIS WONDERGEM

ON THE EDGE.
ON THE WAY TO MORE.

Dutch alpine ski racer. Slalom and giant slalom.
My first FIS season. Be part of my next step.

01 / THE ATHLETE

BECOMING A BETTER RACER.

I first skied aged three on a family holiday. At eight, I started racing with Snowsports Academy Racing. Today I train in Landgraaf and the Alps. Alongside skiing, I build websites through my own business, Wonder Web Design, and invest that income in my sport.

MY GOALS / 2026–2027

01 **Below 100 FIS points**

My target for my first FIS season. Lower FIS points are better.

02 **Strong performances in Dutch races**

Perform well in Dutch races and put my training into practice.

03 **Make real progress**

Improve my technique, gain control and deliver more consistent runs throughout the season.

02 / PARTNERSHIPS

YOUR SUPPORT. MY SEASON.

Your support helps me train, travel to races and compete with the right equipment. I bring your business into that season through real stories from the slopes, personal contact and a partnership shaped around your brand.

Your brand in my season

Through Instagram and LinkedIn, I show what your support makes possible. Together we agree the stories, images and posting frequency that fit our partnership.

A personal connection with your team

During a company visit, I share life as a ski racer: setting goals, dealing with setbacks and improving. We agree the content and timing together.

Work with Wonder Web Design

Through Wonder Web Design, I build websites for businesses and invest the income in racing. Each website is a separate project, with its own quote and clear agreements.
